

Colour Copier Drum/Toner counter check

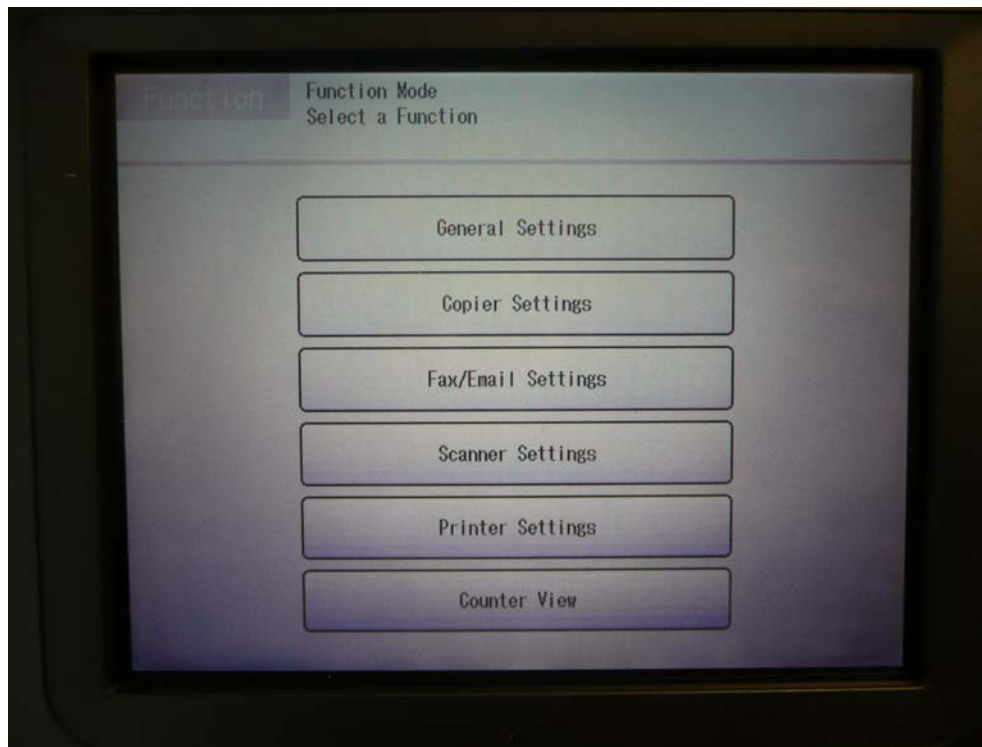

This is a very useful procedure for the customer to monitor their consumable levels.

To check Drum life or Toner life remaining, follow this procedure.

Firstly, press the Function Button on the Control Panel.

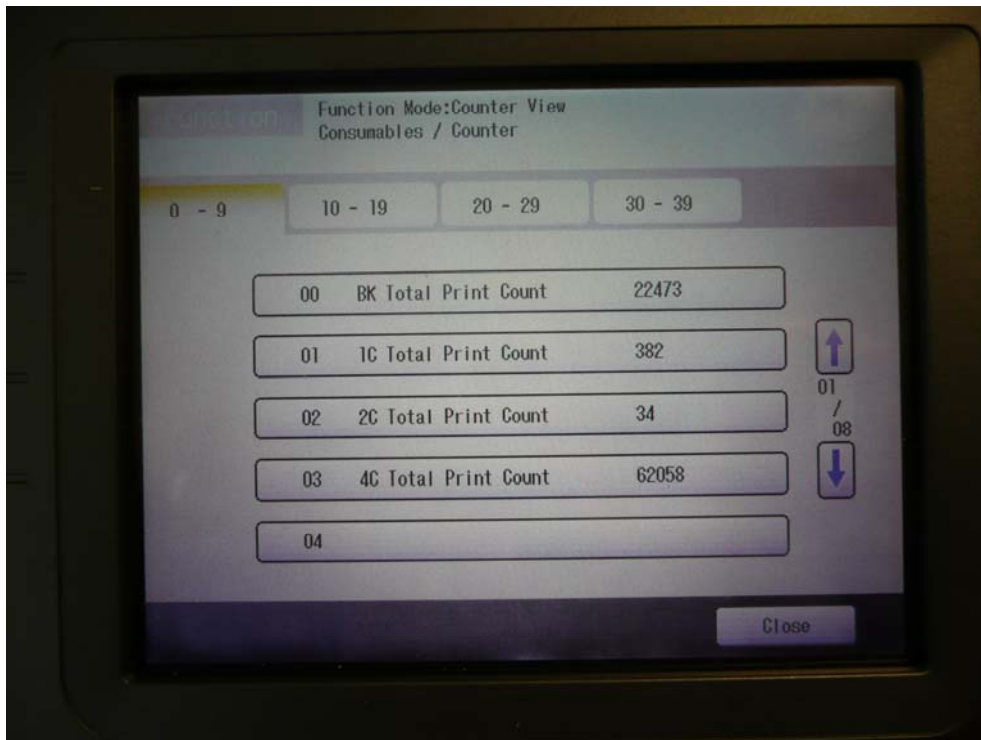

You should now see a screen that displays 6 options.

The last option on the screen is counter view

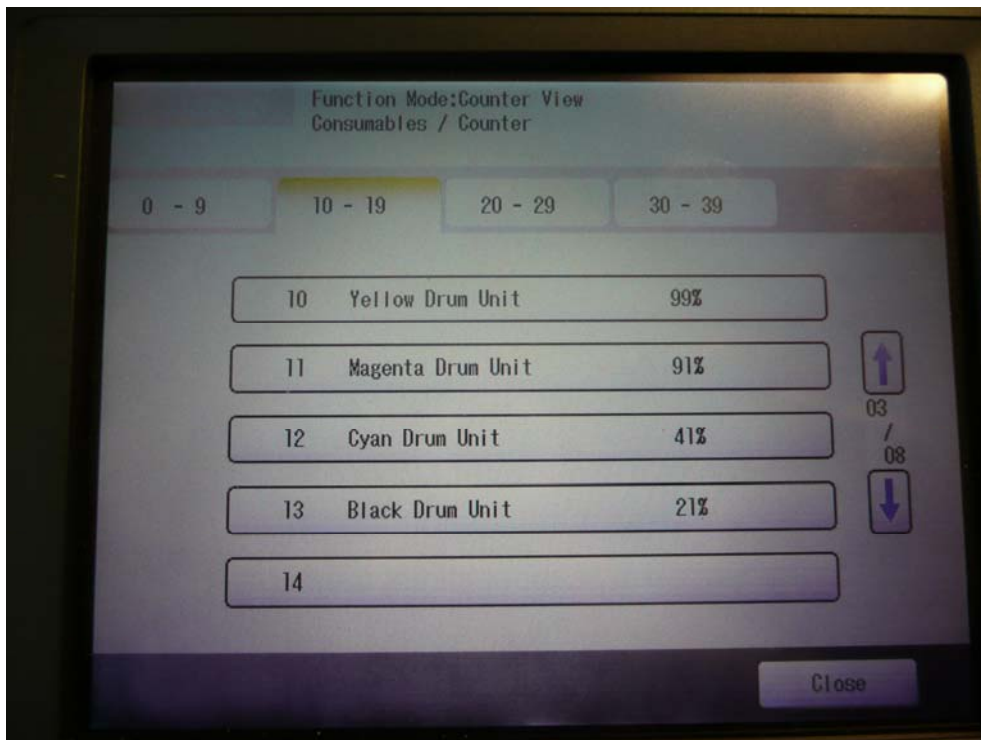

Press the counter view tab on the screen.

You should now see the view consumables/counter

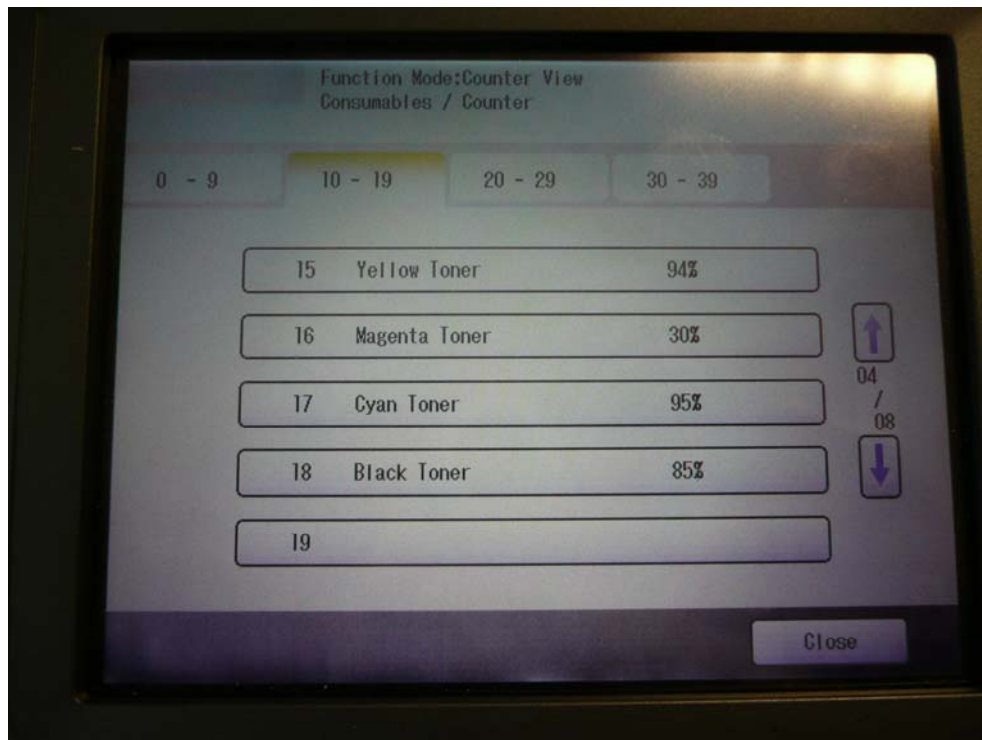

Press the blue arrow down on the right of the touch screen until you have reached page 03/08.

You will now see all the Drum Units with a percentage of life left to the right.

If you now press the blue arrow down tab on the touch screen display to take you to page 04/08.

You will now see the following screen.

This screen displays all of the toners and a percentage of life left to the right of the touch screen.

To return to the Normal screen press the Reset button.
